

[iZotope Neutron Advanced 3.0](#)

The image shows the user interface of the iZotope Neutron Elements software. The interface is dark-themed and organized into several sections. At the top, there are tabs for "Neutron Elements 1", "Track Assistant", and "Presets". Below these are four main processing blocks: "Exciter", "Transient Shaper", "Equalizer", and "Compressor", each with a "Mix" slider set to 100%. A "Vintage Mode" section includes a "0.0 dB Gain" display, "RMS", "Peak", and "True" mode buttons, and "Auto Gain" and "Auto Release" checkboxes. The center of the interface features two graphs: a top waveform graph showing amplitude over time (0s to 5s) and a bottom frequency spectrum graph showing gain across a frequency range from 20 Hz to 20 kHz. The bottom section contains detailed compressor settings: "Threshold" at -20.0 dB, "Attack" at 100 ms, "Release" at 50.00 ms, "Ratio" at 7.0:1, "Knee" at 3.0, and "Gain" at 1.2 dB. A "Sidechain" button is also present. On the right side, there are "Zero Latency" and "Bypass" buttons, two vertical level meters for "In" and "Out" (ranging from 0.0 to -Inf dB), and a "Neutrino Mode" dropdown menu currently set to "Guitar / Instrument". At the very bottom right, there are "Detail" (24%) and "Amount" (70%) sliders.
